

Stopacnenow! 使用说明

使用前请仔细阅读

早上：

第一步：挤3-4滴Cleanser清洗液于手掌上。加5-7滴水稀释。混合并轻轻清洗脸。不要将清洗液揉进皮肤里，不然会感到不适。快速用水清洗并拍干脸。

如有些许痘痘可跳到第三步。

第二步：拍（不要揉！）小量Acne Cream至前额 [1]，下巴 [2]，脸颊 [3]，和鼻子 [4]。请引用下方图片。从鼻子边至耳尖形成一条线 [5]。请将产品擦于该线以下。（即使你在眼部周围有粉刺或其他问题也不要擦于那里；药膏会穿透并扩散2英寸）。

第三步：如果只是在脸部固定位置有粉刺痘痘，你可将产品点至痘痘上。仅使用少量Acne Cream覆盖痘痘上，且不要揉进。一定要保持至少12小时后才清洗掉。

晚上：

入睡前两小时请遵循以上步骤。
脸部图

注意：不要把产品擦到眼睛周围，不要揉进，只是轻拍即可。

警告：如果皮肤变得不适或红肿，应尽快将产品从皮肤上冲掉并在咨询诊所前不要使用。

Stopacnenow! How to Apply

PLEASE READ CAREFULLY PRIOR TO USE

IN THE MORNING :

Step 1: Apply 3-4 drops of **Cleanser** to the palm of your hand. Add 5-7 drops of water to dilute. Mix and gently wash face. Do not rub or massage cleanser into the skin. It will irritate the skin if you do. Quickly rinse off with water, and pad-dry face.

If you only experience minor breakouts, proceed to Step #3

Step 2: Pad(**do not rub in!**) a very small amount of the **Acne Cream** to your forehead[1], chin[2], lower-cheeks[3], and nose[4]. Please refer to the diagram below. From the side of your nose to the point of your ear make an imaginary straight line[5]. You will apply the cream **BELOW** this imaginary line. (Even if you have acne or any other problem(s) near your eyes do not apply around eye area; cream will penetrate 2" in every direction.

Step 3: If you only have acne breakouts in certain areas of your face or body, then you may spot treat by applying the cream over the breakouts only. Apply a small amount and cover the breakout with the Acne Cream. Do not rub or massage in.

IN THE EVENING:

Two hours prior to going to bed, follow the steps indicated above

FACIAL DIAGRAM

Caution: Never apply cream near eye area, and do not rub, simply pad on.

Warning: If skin becomes irritated or becomes red, rinse cream immediately from the skin and do not apply until you have consulted your Skin Care Professional.
